EXPERIENCE

Ampcome, Bangalore — *Software Developer*
OCTOBER 2021 - PRESENT

At Ampcome, I build scalable web apps using React.js, Next.js, TypeScript, and Redux. I've integrated auth (Okta), payment gateways (Stripe, Razorpay), optimized performance across devices, debugged production issues, and collaborated with cross-functional teams to deliver user-focused features.

Software Cubes, Chennai — *Programmer (.Net Developer)*
JANUARY 2018 - MAY 2018

Worked on web applications using C#, ASP.NET, HTML, CSS, JavaScript, and SQL. Developed responsive pages, wrote data queries, and contributed to debugging and optimization efforts.

PROJECTS

Agent XYZ — *Crypto Analytics & AI Assistant Platform*

A web-based analytics platform focused on crypto assets like BTC, PEPE, and ETH, featuring market data visualizations and an AI-powered assistant for answering crypto-related queries.

Developed frontend with React, integrated crypto analytics APIs, configured TradingView charts, and implemented chatbot sessions with chat create/delete features.

Spechtral — *AI Indirect Tax Research Platform*

An AI-powered platform to assist tax professionals by delivering contextual indirect tax insights in real-time.

I built the front-end using Next.js, TailwindCSS, and ShadCN, integrated AI APIs, and created a dynamic response streaming experience like ChatGPT.

Strike — *Stock Market Analytics*

A stock market tool offering data and insights on stocks, options, and futures, with strategy builders, screeners, and visualizations for traders and investors.

I built responsive UI components using React, integrated TradingView and developed AG Grid tables for option chain analysis and trading metrics.

Sony — *Cloud Analytics Platform*

A cloud portal that enables users to activate GitHub/GitLab, request AWS/Azure services, manage OKTA roles, and access training resources.

I developed the responsive frontend, integrated Okta SSO, and collaborated with the sony backend team to implement service workflows and UI components.

ABOUT ME

Software Developer with 4+ years of experience building scalable web applications. Skilled in React, Next.js, TypeScript, Redux, and Tailwind CSS. Delivered end-to-end features for stock analytics and AI-powered platforms with a focus on performance, API integration, and responsive design. Actively exploring full-stack development using Python and SQL. B.Tech in IT from SRM University, Chennai.
